About the Daily Occupancy Report:

DESCRIPTION: The Daily Occupancy Report tracks occupancy on a daily level of granularity. The report combines the data sets of participating properties into a destination wide view that features three data sets (providing that sufficient information is available) including: i) current YTD occupancy, ii) last YTD occupancy, iii) last season's ending occupancy. The report represents both Paid and Unpaid Occupancy in the subject destination.

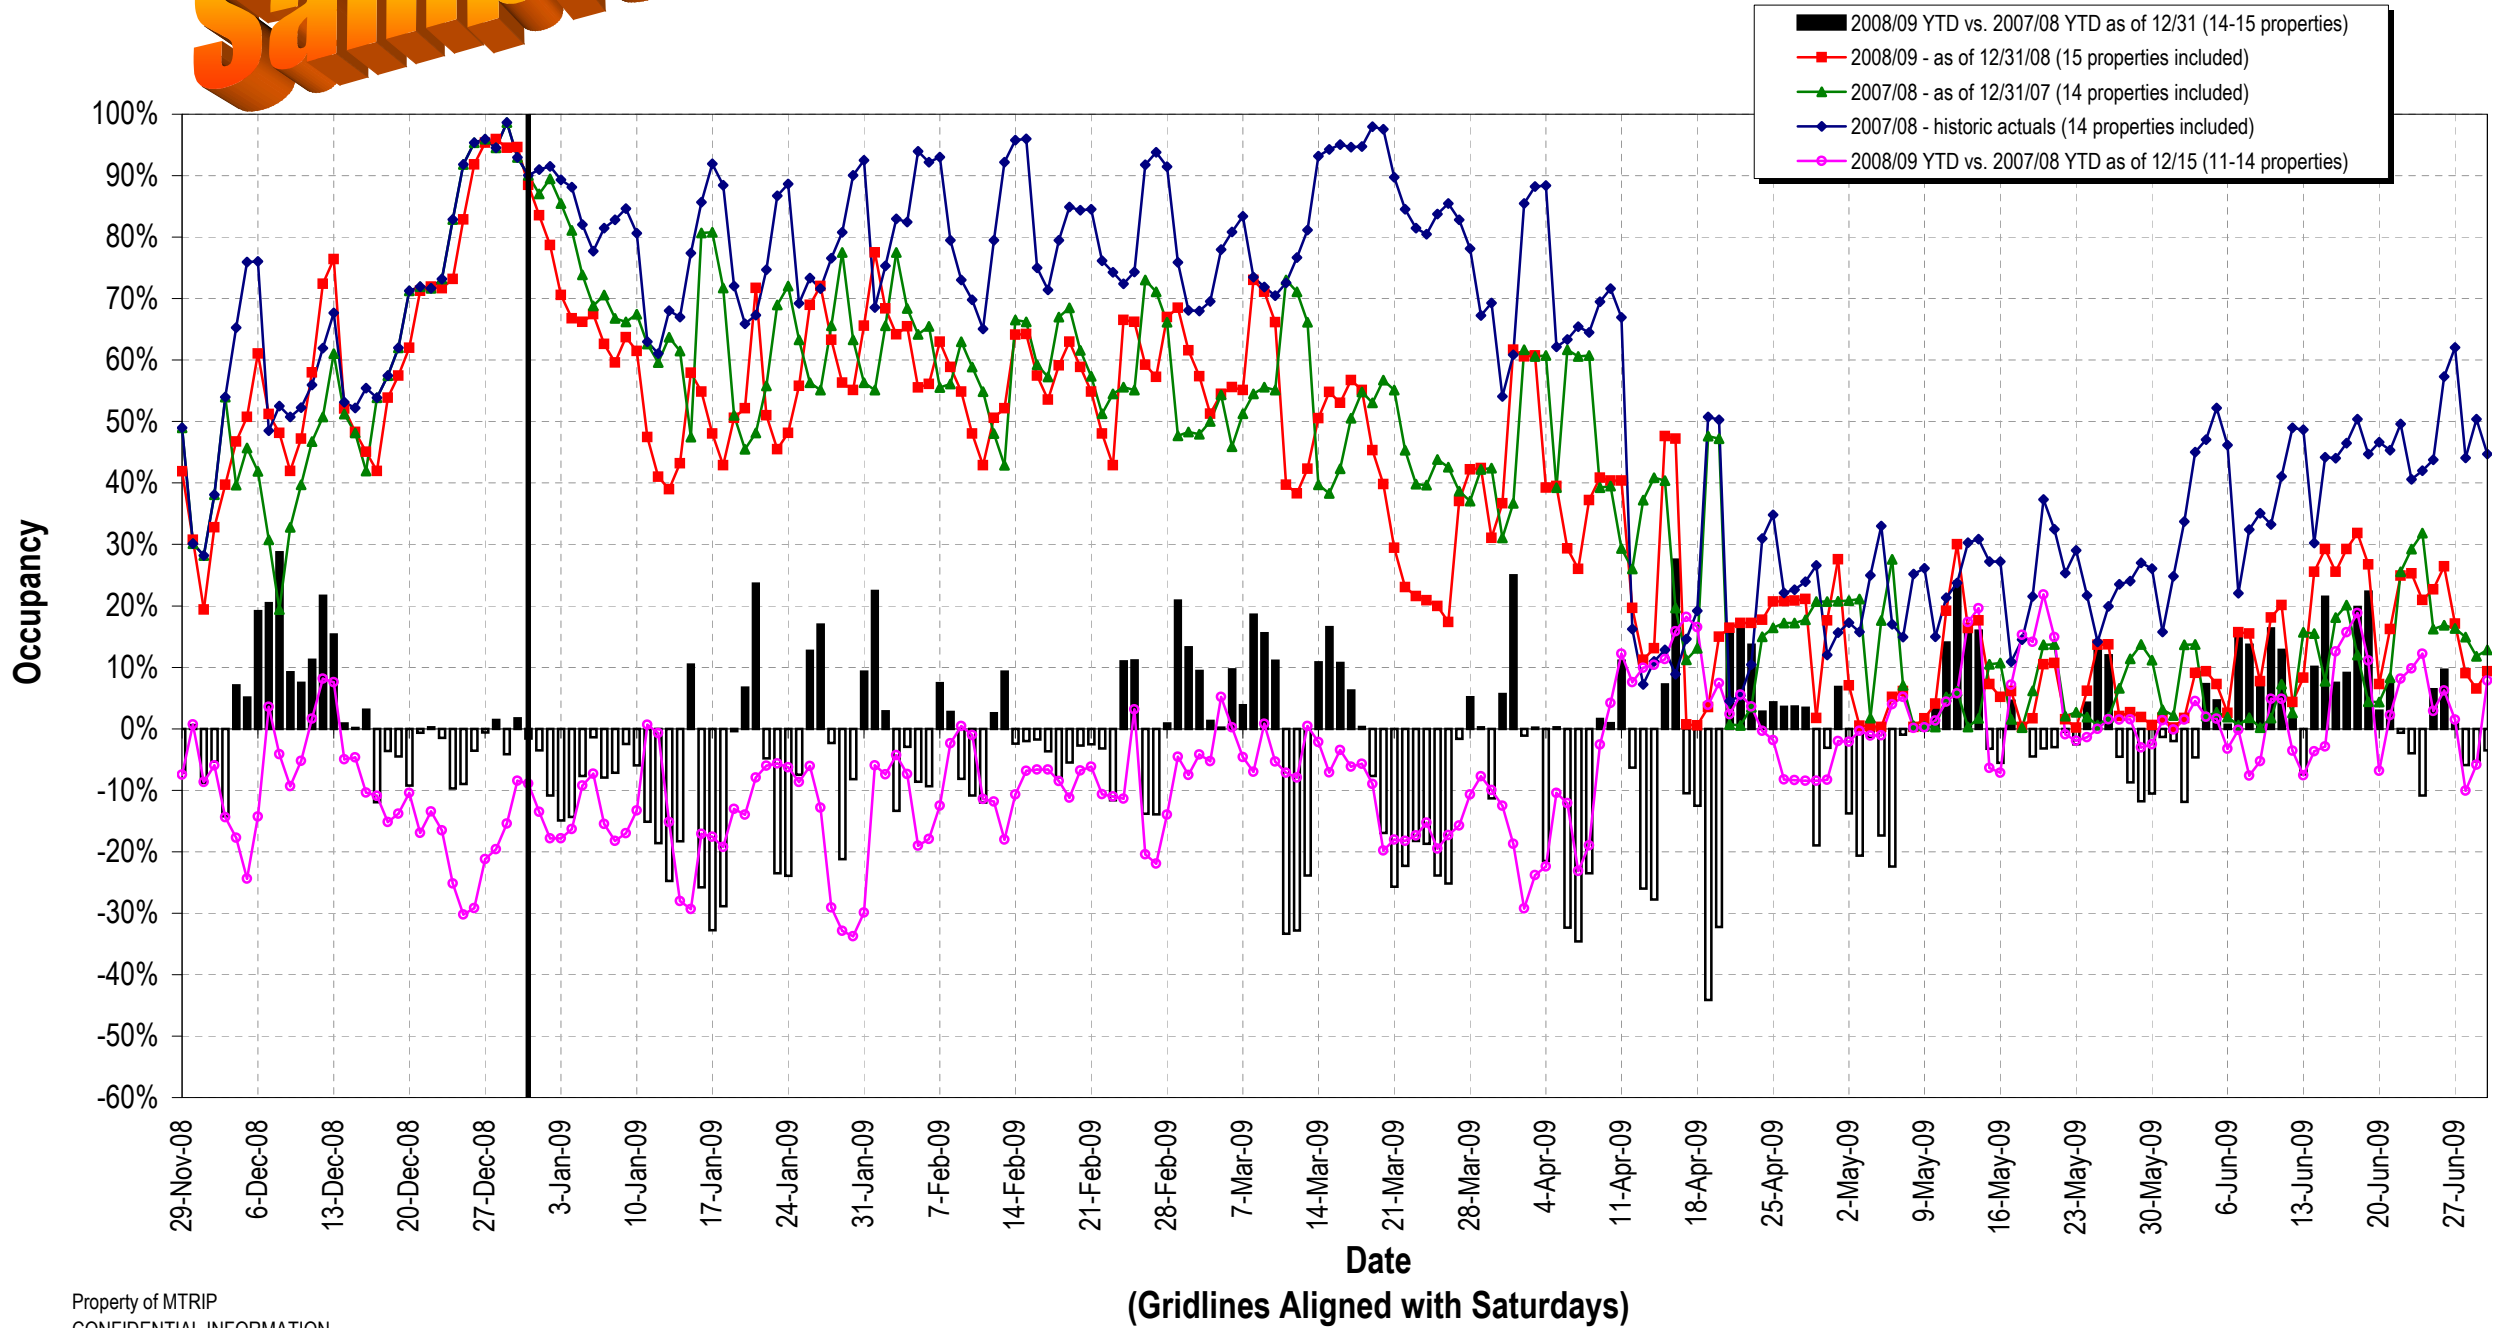

The Daily Outlook Report is generated on a monthly or twice-monthly basis, usually for a 12 month subscription period, and is created from data provided by a group of properties participating in a cooperative manner, and representing a valid set of data as a result.

As is the case in all MTRiP data, all information provided by individual properties is strictly confidential, except when aggregated with other data and indistinguishable as a result.

Note: Information provided here is **CONFIDENTIAL INFORMATION** and is the exclusive property of MTRiP LLC. It is expressly **not** for reproduction. Sample reports are being provided to interested persons, specifically for purposes of their evaluation of a potential subscription. All samples are hypothetical and do not reflect actual results.
